In 2004 I began to pray for help in developing healthy relationships with what was quickly becoming thousands of women. I had become fairly disciplined with 'office hours' for my home phone but when I was in the office my phone would ring with a '1 minute' question that turned into a 15 minute conversation and quickly realized that 'system was broken'.

In addition, I craved expanded mentorship from top Nationals and Directors in Mary Kay to further grow my business. At Leadership Conference 2004, I had this picture taken with Gloria Mayfield Banks (highest commission check: $84,000 in one month). I asked her how I could have access to her mentorship without taking her away from her own people and she told me about a system called Intelliverse.

I knew at that moment it was what I had been praying for.

It allowed me, as a new Sales Director, to learn from some of the TOP people in our company and therefore, help my own people learn more, too. I launched a pilot introduction program and my Unit got excited. In addition, it allowed me to train, educate, inspire and inform everyone each day with my voice. Even further, it allowed the listener to press the 'A' key and talk back with me. All this in short 2-3 minute messages. IT WAS PERFECT!

NOTHING IS MORE IMPORTANT IN YOUR BUSINESS THAN COMMUNICATION.

Today you can use an improved version of this system for $12.95 per month. Needless to say I do not take anyone serious that doesn't use the system. A Consultant not on Intelliverse is totally out of the loop of what is going on in Mary Kay and in our National Area.

Also the system is FAR SUPERIOR to anything out there. Email is flat and does not have emotion and can only 'send information'. Hotlines do not allow back and forth communication. Catching a person live and in person on the phone these days is challenging at best.

You can try it for free for 30 days. Simply call (800) 327-8898 to get connected or go online to www.mk.intelliverse.com. Let me know your number and I will help you get it started and then added to the appropriate lists. I am so proud of our Consultants who have chosen to stay plugged in!!!
